

2ND ANNUAL LATINX PROFESSIONALS NETWORKING BREAKFAST

AmMore Consulting is committed to supporting organizations become *Latino Ready* by developing long-lasting strategies and systems to effectively attract, recruit, retain and advance Latinx talent to succeed and thrive in Greater Cleveland.

Today there are more Latinos in the U.S. than Canadians in Canada. The U.S. Latino population will expand from 58 million today to 130 million by 2050. The Latino purchasing power has already surpassed \$1.7 trillion dollars and will continue to grow. For American companies to succeed in the future, they will have to understand and satisfy the needs of the fast-growing U.S. Latino population. To do so, they will need a workforce that mirrors their future customer base. It is imperative that your organization attracts, develops and retains high-performing Latino employees.

The 2nd Annual Latinx Professionals Networking Breakfast presented by AmMore Consulting is a unique and exclusive opportunity to access and connect to a group of high potential Latino professionals, many of them bilingual, and all ready and eager to become the next generation of leaders.
